

Year One Newsletter - Autumn 2 2020

Dear Parents/Carers

Next half term our topic is **SENSES** and it has a science and DT focus.

In science we will be learning about our bodies. The children will have opportunities to name and label body parts. We will discuss the five senses and carry out experiments and investigations involving the senses.

Throughout the half term we will be exploring cooking and food safety e.g. using a knife safely. We will be making simple healthy recipes e.g. fruit salad, vegetable soup and healthy dips.

In art we will be exploring colour and shape through the use of different artistic techniques e.g. colour mixing. We will be doing still life pictures of fruits and vegetables. We will be looking at a focus artist and children will be creating a self-portrait in the artist's style.

We will begin to send home weekly spellings. Each week the children will be given spellings to practise at home for a spelling test in class, more details to follow after half term.

Please continue to support your child with reading and look out for a writing task. Also Maths homework will be sent home too.

Thank you for your support,

Amanda, Katarina and Alice
