

Dear Green Class,

How are you all? I think about you a lot! Wondering how are you getting on at home. What is your favourite thing to do? Are you learning a lot? It looks like this week we might find out a bit more about coming back to school. I can't wait to see you all. I think we will do a lot of 'show and tell' because I want to hear about your time at home. I have been writing your Reports last week and I couldn't be prouder! I had so many lovely things to say about you. You have all been absolutely amazing, working hard and being so kind and friendly towards each other. Me and Nina are still running a couple of times a week and exercise at home.

We have been cooking a lot, as always. Finally, this week we made a cheesecake. We went to the Polish shop a bought plenty of treats: biscuits, chocolates, cocoa, jellies and a special cheesecake mix. We have started sorting out old photos because there has never been time to do it before. We found a lot of old, fun photos and had a great time looking at them. I am sending you one of Nina. She used to be a Fireman Sam lover in Reception and Year 1. She had plenty of stuff with Fireman Sam. I remember buying her clothes in boys' section.

All three of us had a quite busy week. I have been writing Reports, Nina has been doing her school work and I think Gary had the busiest week in his life. He shed his skin, which is quite fascinating to see what's left from it. He has been playing hide and seek and most importantly, he has been helping Nina with her school work. He seems to be an expert at Science! I am posting you some photos of him!

Please make sure you are reading a lot! Sign in to Activelearn and you can choose a book you want to read. Don't forget Purple Mash. There are new, fun activities for you every week.

Have a good week my lovely friends. Make sure you are learning, having fun, listening and helping your parents. I am sure that your parents are doing an amazing job as your teachers (I can't wait to hear all about it! 😊).

I miss you all loads! Stay safe and keep well.

Lots of love to you and your parents,

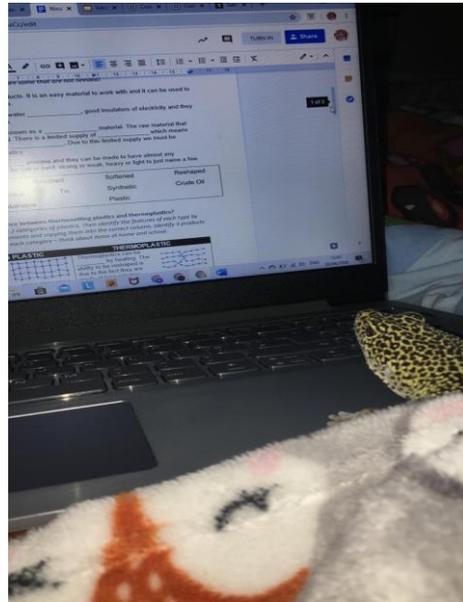

Natasza xxx

Gary playing hide and seek.

Gary helping Nina with Science.

Gary's shed skin.

It looks like a glove, doesn't it?

Nina in Reception 😊

Hi Green Class.

I made a couple of yummy banana loaves, just like we made in class. They were really tasty and my sons and I ate half of one before it even had a chance to cool down.....I might have banana bread for dinner tonight!!!

Have any of you cooked or baked anything at home?? I hope it was tasty and you and your families had a nice time eating all those scrummy treats!!

Lots of love,

Jane 😊
