

Hi to all the lovely Nursery children.

I hope you are keeping safe and have been doing lots of activities at home with your families! I have been busy doing lots of cooking and baking at home! I have also been cycling in the mornings to get some exercise, although I'm making sure I am keeping safe and I am washing my hands regularly!

While you are at home, please continue to do Phase One activities from the Letters and Sounds document, which you can see online. You can also find Phase 1 games and resources on the Nursery page of the school website.

Lots of activities including rhyming, alliteration and oral blending and segmenting would be great!

Continue to practice counting out for up to ten objects from a larger set, saying one number for each object. Counting and number recognition in a variety of contexts really cements children's understanding of numbers and quantities.

Also, please continue to mark make in a variety of ways, e.g with paint, pencils, felt tips, chalk etc and encourage your child to label their pictures with their names!

This week we are asking all the children to make a picture or sculpture of Speaky Beaky - You could have a go at drawing, painting, collage or even model making.

Don't forget to email your photos to school so we can share them.

Helen
