

Dear Red Class

We hope you are all well and had a lovely Easter with your families. Hopefully you have been enjoying the sunshine, on walks in the park, time in your garden, bike rides and other little bits of exercise you've managed to do outside.

Hello from Becca - I am missing you all. Missing fruit time and the chats we have each day, as well as time spent learning, playing and keeping busy at school. I have missed playing the recorder with you all, so have started to teach my own children how to play! It's not the same when I can't hear 29 of you all playing together though! I have been keeping busy baking bread and cakes. Here is a picture of my latest loaf of bread which I managed to get a fancy pattern onto! I've also been gardening and watching my vegetable patch start to grow, going on bike rides and using my sewing machine. I made some face masks with my daughters, to wear when we go to the shops. Can you guess which one is mine?

Hello from Christina - Hope you've had a good Easter. I have been enjoying the weather, and my garden. I planted some lettuce seeds, and was pleased to see some shoots appearing from the seeds I planted 3 weeks ago (see photo). On Easter Sunday we did a little Easter egg hunt in the garden even though my children are 19, 17 and 13! We have also been going on daily walks or bike rides especially as Joe Wicks was on his Easter hols too! We have been doing lots of on line games and quiz sessions with friends and family that we'd normally be visiting over the Easter hols, it was different, but really good fun. I hope you are all managing to keep in touch with family and friends that you would normally go and visit.

Duygu has asked us to tell you how much she really missing you. She still spends a lot of time playing with her cat and she has been taking care of her garden, you can see how beautiful her flowers are. She had a lovely quiet Easter and she did not eat all of her eggs.

If we were at school at the moment, we would be starting out Iron Man topic. The year 2 teachers will read a chapter a week for you to listen to, and we'll give you some work to complete about the story. You can make your own comic book version of the story, chapter by chapter. The template is attached for your grown up to print. There are also other activities for you, as well as work on purple mash.

Keep busy, and have fun! From Becca, Christina and Duygu
